

New Disc Material series KG9/7 and KG6/8

Disc-Material has changed from **1.4408** to **1.4517**

KG9 with new disc material

It's **1.4517**
and 
not 1.4571

KG6/8 disc polished with charge no. on the square

Advantages:

More yield strength:

1.4408 $R_{p0,2} = 185 \text{ MPa}$

1.4517 $R_{p0,2} = 480 \text{ Mpa}$

More corrosive resistance:

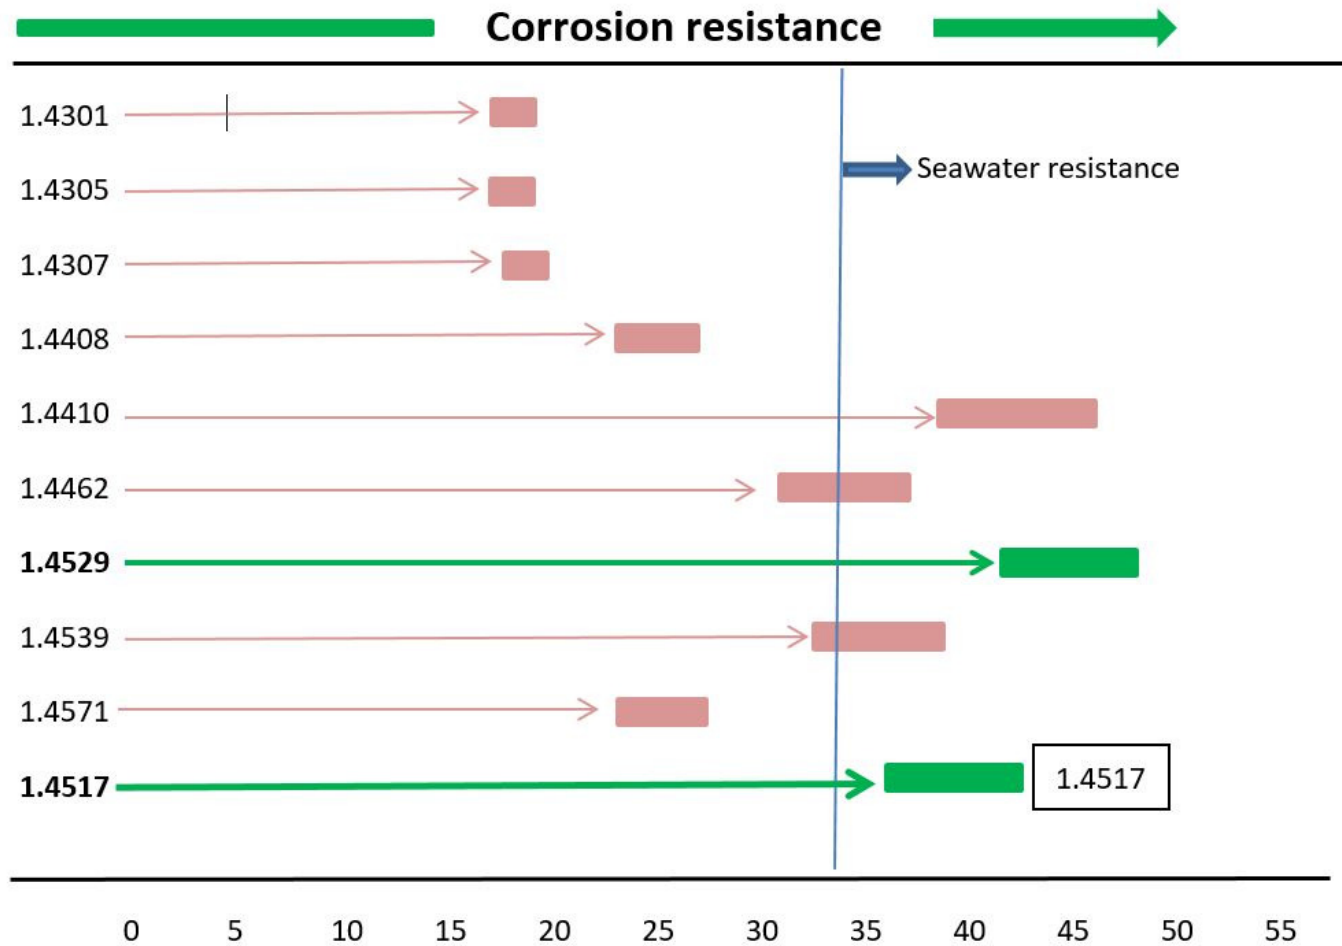

1.4408 PRE = $\emptyset 25$

1.4517 PRE = $\emptyset 39$

Same price level !
