

The XC model knife gate valve is a wafer type valve designed for industrial bulk handling service applications (powdered and granular products). The special design of the body allows for easy passage of the fluid and makes it ideal for use as silo outlet valve. Widely used in industries such as Power Plants, Chemical Plants, Mining, Food and Beverage, etc.

Product description:

- Uni-directional wafer type knife gate valve
- Size range of DN50-600 (larger sizes upon request). See Dimension Charts for pressure rating
- Rising & non-rising stem configurations available
- Standard flange connection: DIN PN10 (EN 1092-2) and ANSI B16.5 (class 150)
Others available upon request
- Manual (handwheel, chainwheel, lever and bevel gear), pneumatic (single and double-acting), electric and hydraulic actuation options available
- Directives: 2006/42/EC (MACHINES), 2014/68/EU (PED) Fluid: Group 1(b), 2 (Cat. I. mod. A) and 2014/34/EU (ATEX)

Features:

- Wafer cast monoblock body with internal cast-in gate wedges and guides for tighter shut-off as well as special cast gate supports for permanent contact between seat and gate when the valve is installed in flow apposite direction
- Wide face-to-face distance and integrated flushing corners to avoid any solids build up that would prevent the valve from closing, as well as, standard flush ports for body cleaning
- Stainless steel rectangular shaped gate, polished both sides to avoid jamming and seat damage
- Standard EPDM resilient seat. Metal-to-metal seat, as well as high performance rings and deflection cones available
- Long life PTFE impregnated synthetic fibre plus EPDM o-ring packing with easy access and adjustable gland follower. Wide range of packing materials available
- RAL-5015 blue epoxy-coating on all cast iron/carbon steel components
- Automated valves provided with gate guards in accordance with EU Safety Standards
- Other options: bonnets, flushing ports, special materials, fabricated valves, etc.
- Actuation accessories: limit & proximity switches, mechanical stops, positioners, solenoid valves, manual overrides, locking devices, fail safe systems, stem extensions and floor stands
