

**DECLARATION OF COMPLIANCE TO REGULATIONS
ON MATERIALS AND ARTICLES INTENDED TO COME
INTO CONTACT WITH FOOD
as per article 16 of REGULATION (EC) No 1935/2004**

I, the undersigned, Mr A. Gelderblom

Company : Krohne Altometer

Address: Kerkeplaat 12, 3313LC Dordrecht

acting in the capacity of: production group manager

hereby declare that the materials intended to come into contact with food entering into the composition of the articles referenced by the client as follows:

Krohne EMF sensor, type Optiflux 6000

belong to the following categories of materials (listed in Annex I of Regulation (EC) 1935/2004):

- | | | | | | |
|--|--------------------------|---------------------|-------------------------------------|----------------------------|---|
| 1) Active and intelligent materials and articles | <input type="checkbox"/> | 2) Adhesives | <input type="checkbox"/> | 3) Ceramics | <input type="checkbox"/> |
| 4) Cork | <input type="checkbox"/> | 5) Rubbers | <input checked="" type="checkbox"/> | 6) Glass | <input type="checkbox"/> |
| 7) Ion-exchange resins | <input type="checkbox"/> | 8) Metal and alloys | <input checked="" type="checkbox"/> | 9) Paper and board | <input type="checkbox"/> |
| 10) Plastics | <input type="checkbox"/> | 11) Printing inks | <input type="checkbox"/> | 12) Regenerated cellulose | <input type="checkbox"/> |
| 13) Silicones | <input type="checkbox"/> | 14) Textiles | <input type="checkbox"/> | 15) Varnishes and coatings | <input type="checkbox"/> |
| 16) Waxes | <input type="checkbox"/> | 17) Wood | <input type="checkbox"/> | Others | <input checked="" type="checkbox"/> (please specify): Resin Fluoropolymer |

I declare that these materials comply with the requirements of Regulation (EC) No 1935/2004 of 27th October 2004 and with those of Regulation (EC) No 2023/2006 of 22nd December 2006 modified.

The compliance of the materials composing the articles described above which come into direct contact with food is determined according to the regulations and/or other reference texts in force set out below by the declarant:

Compliance is declared:

- subject to respect of the storage, handling and utilisation conditions specified by the declarant (where applicable, the conditions set out and defined at the time of the tender or order, reference), subject to the use of original spare parts, and taking into account the specific characteristics of the material or articles. Details given in the appendix, where applicable.
- with the following restrictions, where applicable:
 - In the case of modification of the physicochemical properties of the food in contact with the material, modification of the said food, modification of the contact conditions (temperature, length of time, etc.) and in the case of modification of the process or cleaning and disinfection conditions as defined by the declarant, the recipient of this declaration must check the continuing fitness for use of the material or article referred to herein.
 - Any changes in the material or article or its use must be submitted for reassessment of compliance.

This declaration of compliance is based on the following (tick the appropriate boxes):

- Declaration(s) of the suppliers of materials, treatments, surface coatings or components used for the manufacture of the materials and articles referred to in the declaration.
 - Total migration analyses
If applicable, see additional information document.
 - Analyses of substances subjected to limitations (including specific migration)
If applicable, see additional information document giving a list of the substance subjected to limitations(s) and the maximum authorised specific migration limit (SML) .*
 - Presence of dual function additives
If applicable, see additional information document giving a list of the substance subjected to limitations(s) concerned (Nam/CAS No and/or EINECS) and the maximum specific migration limit (SML) authorised.*
 - Presence of recycled materials
If applicable, see additional information document.
 - Presence of active or intelligent materials
If applicable, see additional information document.
 - Others e.g. *non-regulated materials.*
If applicable, see additional information document giving a list of the substances concerned.*
- *A substance is referenced by its name, CAS No and/or EINECS and/or PM reference in the case of plastics.*

This declaration is valid on the date of delivery of the material or article. It must be renewed whenever compliance to above is no longer ensured (change of material or change in regulations before delivery of the material or article).

The declarant must provide the competent authorities with all appropriate documentation in support of the said compliance.

If applicable, the field of declaration of compliance may be extended to cover other national and supranational regulations by specifying that the materials intended for contact with food respect the requirements of the regulations defined by the FDA in the United States and contained in CFR21 (code of Federal Regulations, title 21), for example.

Signed on the **FRI** day of **18th** of **2011**
