

# IECEx Certificate of Conformity

## INTERNATIONAL ELECTROTECHNICAL COMMISSION IEC Certification System for Explosive Atmospheres

for rules and details of the IECEx Scheme visit [www.iecex.com](http://www.iecex.com)

Certificate No.:	<b>IECEx KIWA 17.0012X</b>	Page 1 of 4	<u>Certificate history:</u>
Status:	<b>Current</b>	Issue No: 2	<a href="#">Issue 1 (2018-12-14)</a> <a href="#">Issue 0 (2017-06-29)</a>
Date of Issue:	2020-10-22		
Applicant:	<b>KROHNE S.A.S</b> 2 Allée des Ors-BP 98, 26103, Romans France		
Equipment:	<b>Radar Level Transmitter, models OPTIWAVE 1400 C, 5400 C, 6400 C, 7400 C, 3500 C, 6500 C and 7500 C and OPTIWAVE-M 7400 C and 7500 C</b>		
Optional accessory:			
Type of Protection:	<b>d, i, t</b>		
Marking:	Ex ia IIC T6...T* Ga/Gb Ex ia IIIC T85 °C...T* °C Da/Db Ex db ia IIC T6...T* Ga/Gb Ex ia tb IIIC T85 °C...T* °C Da/Db Ex ic IIC T6...T* Gc Ex ic IIIC T85 °C...T* °C Dc T* and T* °C are detailed in the equipment model codes in Annex 1		

Approved for issue on behalf of the IECEx  
Certification Body:

**Harry de Wild**

**Certification Officer**

22 October 2020

1. This certificate and schedule may only be reproduced in full.
2. This certificate is not transferable and remains the property of the issuing body.
3. The Status and authenticity of this certificate may be verified by visiting [www.iecex.com](http://www.iecex.com) or use of this QR Code.

Certificate issued by:

**Kiwa Nederland B.V. (Unit Kiwa ExVision)**  
Wilmersdorf 50  
7327 AC Apeldoorn  
P.O. Box 137  
Netherlands

# IECEx Certificate of Conformity

Certificate No.: **IECEx KIWA 17.0012X**

Page 2 of 4

Date of issue: 2020-10-22

Issue No: 2

Manufacturer: **KROHNE S.A.S**  
2 Allée des Ors-BP 98,  
26103,  
Romans  
**France**

Additional manufacturing locations: **KROHNE Measurement Technology (Shanghai) Co., Ltd.**  
Minshen Road 555 Songjiang Industrial Zone  
Shanghai 201612  
**China**

This certificate is issued as verification that a sample(s), representative of production, was assessed and tested and found to comply with the IEC Standard list below and that the manufacturer's quality system, relating to the Ex products covered by this certificate, was assessed and found to comply with the IECEx Quality system requirements. This certificate is granted subject to the conditions as set out in IECEx Scheme Rules, IECEx 02 and Operational Documents as amended

## STANDARDS :

The equipment and any acceptable variations to it specified in the schedule of this certificate and the identified documents, was found to comply with the following standards

**IEC 60079-0:2017** Explosive atmospheres - Part 0: Equipment - General requirements  
Edition:7.0

**IEC 60079-1:2014-06** Explosive atmospheres - Part 1: Equipment protection by flameproof enclosures "d"  
Edition:7.0

**IEC 60079-11:2011** Explosive atmospheres - Part 11: Equipment protection by intrinsic safety "i"  
Edition:6.0

**IEC 60079-26:2014-10** Explosive atmospheres – Part 26: Equipment with Equipment Protection Level (EPL) Ga  
Edition:3.0

**IEC 60079-31:2013** Explosive atmospheres - Part 31: Equipment dust ignition protection by enclosure "t"  
Edition:2

This Certificate **does not** indicate compliance with safety and performance requirements other than those expressly included in the Standards listed above.

## TEST & ASSESSMENT REPORTS:

A sample(s) of the equipment listed has successfully met the examination and test requirements as recorded in:

Test Reports:

# IECEx Certificate of Conformity

Certificate No.: **IECEx KIWA 17.0012X**

Page 3 of 4

Date of issue: 2020-10-22

Issue No: 2

## EQUIPMENT:

Equipment and systems covered by this Certificate are as follows:

The Radar Level Transmitters OPTIWAVE x400/x500 C series and OPTIWAVE-M 7400 C/7500 C (detailed model codes are given in Annex 1) measure level, volume, distance and reflectivity of liquids or solids within storage or process tanks or in stilling wells. They are 2-wire loop powered transmitters that use FMCW (Frequency-Modulated Continuous Wave) radar technology. The degree of protection of all transmitters is IP66/IP68 in accordance with IEC 60529.

### OPTIWAVE 1400 C

The output signal is an analog 4-20 mA output with HART communication.

The transmitter is protected by intrinsic safety "i".

The electronics enclosure is a single compartment made of stainless steel closed by the antenna.

The transmitter is always delivered with a cable gland and cable (max. 10 m length).

The ambient temperature range is -20 °C to +70 °C (see also specific conditions of use)

### OPTIWAVE 5400 C, 6400 C, 7400 C, 3500 C, 6500 C, 7500 C

The output signal is either an analog 4-20 mA output with HART communication or a digital fieldbus communication protocol (PROFIBUS PA or FOUNDATION™ fieldbus).

The electronics insert in the compartment connected to the antenna is in type of protection intrinsic safety "i". The terminal compartment is either in type of protection flameproof enclosures "d" and protection by enclosure "t" or intrinsic safety "i".

The electronics enclosure can be of aluminium or stainless steel.

Optionally, the transmitter may be provided with display and adjustment capabilities (HMI option).

The OPTIWAVE 6400 C transmitter can be used with an existing certified OPTIWAVE 6300 C horn or drop antenna system.

The OPTIWAVE 7400 C transmitter can be used with an existing certified OPTIWAVE 7300 C horn or drop antenna system.

The ambient temperature range is -40 °C to +75 °C (see also specific conditions of use).

### OPTIWAVE-M 7400 C, 7500 C

The output signal is an analog 4-20 mA output with HART communication.

The transmitters are protected by intrinsic safety "i".

The electronics enclosure can be of aluminium or stainless steel.

Optionally, the transmitters may be provided with display and adjustment capabilities (HMI option).

Optionally, the transmitters can be equipped with a separately certified external pressure sensor.

The OPTIWAVE-M 7400 C transmitter can be used with an existing certified OPTIWAVE 8300 C horn antenna system.

The ambient temperature range is -40 °C to +75 °C (see also specific conditions of use).

Refer to Annex 2 for electrical data

## SPECIFIC CONDITIONS OF USE: YES as shown below:

- The flameproof joints are not intended to be repaired;
- Build-up of electrostatic charge on the painted enclosure and external plastic parts shall be avoided by suitable measures;
- Refer to manuals 4005292703 - AD IECEx OPTIWAVE x400, 4007039802 AD IECEx OPTIWAVE-M 7400, 4005809903 AD IECEx OPTIWAVE x500, 4007040002 AD IECEx OPTIWAVE-M 7500 and 4007635101 AD IECEx OPTIWAVE 1400 for detailed information on the relation between the ambient temperature range, process temperature range and the temperature class T\* and the maximum surface temperature T\* °C.

# IECEx Certificate of Conformity

Certificate No.: **IECEx KIWA 17.0012X**

Page 4 of 4

Date of issue: 2020-10-22

Issue No: 2

## DETAILS OF CERTIFICATE CHANGES (for issues 1 and above)

- Update to the IEC 60079-0 : 2017 edition 7.0.
- Addition of stainless steel enclosure for type of protection flameproof.
- Addition of a full peek antenna and PTFE flange protection for OPTIWAVE 7500.
- Addition of Profibus PA and Fieldbus options.
- Change of minimum input voltage for type of protection flameproof / dust protection by enclosure.
- Addition of model OPTIWAVE 1400 C (not for types of protection Ex db ia and Ex ia tb)

- q Process connection Sealing Face / Hygienic
  - 0: Without
  - 1: Standard Type B1 EN 1092-1
- r Calibration certificate (one digit, not safety relevant)
- s Options
  - 0: Without
  - 2: Purging system
- t Accessories / TAG plate (one digit, not safety relevant)

### Electrical Data

#### Apparatus in type of protection intrinsic safety "ia" and "ic"

OPTIWAVE model	Output option	Only for connection to a certified intrinsically safe circuit with the following maximum values at +/- terminals				
		Ui (V)	li (mA)	Pi (W)	Ci (nF)	Li (μH)
5400 C, 6400 C, 7400 C, 3500 C, 6500 C, 7500 C, -M 7400 C, -M 7500 C	4-20 mA/HART	30	130 *)	1 *)	10	0
1400 C		30	130 *)	1 *)	12	6
5400 C, 6400 C, 7400 C, 3500 C, 6500 C, 7500 C	PROFIBUS PA or FOUNDATION™ fieldbus	24	380 *)	5.32 *)	5	10

\*) This parameter is not relevant for type of protection "ic"

#### Apparatus in type of protection flameproof enclosures "d" and dust ignition protection by enclosure "t"

OPTIWAVE model	Output option	Maximum parameters at +/- terminals		
		U <sub>N</sub> (V dc)	I <sub>N</sub> (mA)	U <sub>M</sub> (V ac/dc)
5400 C, 6400 C, 7400 C, 3500 C, 6500 C, 7500 C	4-20 mA/HART	36	22	250

#### Apparatus in type of protection flameproof enclosures "d" and dust ignition protection by enclosure "t" with field wiring in type of protection "ia"

OPTIWAVE model	Output option	Only for connection to a certified intrinsically safe circuit with the following maximum values at +/- terminals				
		Ui (V)	li (mA)	Pi (W)	Ci (nF)	Li (μH)
5400 C, 6400 C, 7400 C, 3500 C, 6500 C, 7500 C	PROFIBUS PA or FOUNDATION™ fieldbus	24	380	5.32	5	10
